

ATHARVA GOGAWALE

Software Developer | Frontend Developer | Data Science | Data Analyst

+91 93263 42123 gogawaleatharva997@gmail.com [LinkedIn](#) [GitHub](#) [Portfolio](#)

Professional Summary

BCA student and full-stack developer experienced in building AI-integrated web applications with React, TypeScript, and Firebase. Skilled in Python-based data analysis, Power BI dashboards, and Google Gemini API integration for intelligent, cloud-hosted platforms with real-time databases and geolocation services. Seeking Software Developer, Frontend Developer, Data Science, or Data Analyst internship opportunities.

Education

Bharati Vidyapeeth Deemed University, Kharghar, Navi Mumbai

Aug 2025 – Mar 2028 (Expected)

Bachelor of Computer Applications (BCA)

- Relevant Coursework: Data Structures, DBMS, Web Technologies

Experience

MyCaptain (Remote)

Nov 2025 – Present

Campus Ambassador

- Represented MyCaptain as sole Campus Ambassador at Bharati Vidyapeeth Deemed University, driving student outreach and platform enrollment across BCA/BBA cohorts for 9+ months
- Organized and promoted skill-development webinars and live sessions while producing social media outreach content that generated qualified student leads
- Liaised directly with MyCaptain's core team to relay on-ground feedback, contributing to improved campus engagement strategies

Projects

Civic Hero | *React, TypeScript, Vite, Firebase Firestore, Firebase Authentication, Google Maps Platform, Google Gemini API, Tailwind CSS*

- Built an AI-powered hyperlocal emergency response platform featuring one-tap SOS alerts, live volunteer coordination, and real-time Google Maps location tracking
- Integrated Google Gemini API for AI-driven emergency triage and severity classification, enabling faster, intelligence-led response prioritization for responders
- Engineered Firebase Firestore real-time synchronization and an offline-first architecture with a disaster intelligence dashboard, ensuring reliability during network interruptions

Smart Attendance System | *React, Firebase Realtime Database, QR-Based Authentication, Geofencing*

- Developed a QR-code attendance system with geofencing validation to prevent proxy check-ins and enforce location-verified attendance
- Built role-specific dashboards for Students, Teachers, and Admins with real-time Firebase integration for secure, tamper-resistant records
- Delivered attendance analytics and reporting features, enabling data-driven insight into student participation trends

Technical Skills

Programming Languages: Python, JavaScript, TypeScript

Frontend Development: React, HTML5, CSS3, Tailwind CSS

Backend & Cloud: Firebase, Firestore, REST APIs, Vercel

Data Analytics: Power BI, Microsoft Excel, Pandas

Artificial Intelligence: Google Gemini API, Prompt Engineering, Generative AI

Tools & Platforms: Git, GitHub, VS Code, Microsoft Office

Certifications

- IBM – Python for Data Science, AI & Development
- Deloitte Australia – Technology & Cybersecurity Job Simulations
- Tata – Cybersecurity Analyst & Data Visualisation Job Simulations
- Unlocking AI for Everyone
- Power BI Workshop
- Data Analytics with Python
- Cyber Awareness – AI Basics

Core Competencies

Problem Solving | Analytical Thinking | Communication | Leadership | Teamwork | Critical Thinking | Agile Development
